THURSDAY MORNING, APRIL 11, 1850

IFF We have a few words to say to the Whigs of this victorty, in regard to their patronage of a paper, in their midst, which is devoted to the advocacy of the dectrines of the potty. Almost averywhere clse. something like adequate patronage is bestowed upon party papers, by those who profess to be enrolled under the party banner. It has never been the case here, how ever, although this is a strong Whig County, and it would be supposed that the members of the party would not only be willing, but anxious to sustain their organ in such a mianner as to enable the proprie tors to give them the best paper possible .-Every one must be aware, that the more liberal the patronage bestowed, the better paper will the party and the public receive The patronage given by the party to this establishment, for nearly years past, ha been small in comparison with that best w ed in other commonities, upon other jour na's. If it is all given, it cannot fully remonerate the publishers for their labors as a matter of more profit, Newport ha never yet austained a paper in a manner t compensate an editor for the devotion of hi time and energies to the work. He confemploy filmself elsowhere, in the same of other pursuits, and be much more liberail rewarded, in a piceuniary point of view. Some persons seem to entertain the ide that newspapers can live on air; this is sad mistake, as every one would very sor ascertain, if presessed of a knowledge. the business. It requires a easily capital carry on the paper, while its work is near all on the credit system. The surest wa re obtain a good paper, is to hestow a libe ral patronage. We make these remarks for the purpose of imparting informatic which is not probably known, as a gener thing. We have no favors to ask, no app ogies to make, and, last of all created things no whining to do. We flatter no man v mity, and we bead to no man's whim.-Our independence of chameter is the latattribute which we shall yield, and that we only depart with our vanishing breath. Our aim is to make just as good a paper ; we possibly can, and a little better than the patronage besto ed will warrant. W shave ever advocated sound doctrines, on a occasions, and we shall continue to sustai what we conceive to be true grounds on a subjects, in a manly, fearless and console cious manner. We desire ou man's patroage as a matter of taver; we give a que pro quo, and if any one supposes that w shall cringe on any occasion, or play th sycophant, under any encountiances,

We have had long experience in editor; life, and although we have been publicknown as an editor only during the last tw years, still we have written very much f the press for the last ten years. We a ways undeavor to discharge our duty co scientiously; we aim to pursue the rigi path in life, and if we err, it is an error the head, and not of the lear. We a not so wedded to old antions, and not a intimblated by those who have patronty to bestow, that we will swerve to the rig or the left, as circumstruces may dictate Le a politie course. We have opinious our own, and we are never affected to adv are them, with an hone I and fearless fir

Drive Words or Ma. Cathour, "An atthentis report of the tast issues of Mr. Cats houn, in the Charleston Mercury, states toai a few hours before his death, he attered the to lowing remark:

"I eager-t avoid thinking of the political hife will be immense. affairs of the country. If I could have but one hour to speak in the Senate, I could do more good than on any previous occa- o ment shows that tar, a very large plans on of my life."

Mn. Entrop:

In your account of the Municipal bus iness transacted on Wednesday last, I perseive that a very important change, is our Municipal polity, is contemplated by the Citizens of the Town. I trust sir, that many of those who voted for this severence of the Probate business from the administration of the Town Council, did not intend that the proceedings on Wellness day should be a final action of the Town upon this subject. If this action of the Town is considered to be final, then many volers have a right to complain that is distinct notice of the contemplated changes had not been previously given to the citia us of the Town. It has not been a newal course of proceeding in this town, to propose changes of great importance, and in adoet them at one and the same meeting. or on one, and the same day, morning of Wednesday last, it would seem that the town were not prepared to vote on the question; and they appointed a Committee to report to them on the solo jeet. But what does this Committee report. Ist, that there is no meanssary connexion between financial, productial and police concerns, and the business of Courts of Probate. 24, that those distinct powers and duties are not vested in the same losty of men in the other States. 3d, that on the one hand, individuals, in many instances, are to be found, qualified for the man agement of town affairs, and magnatified for deciding Probate affairs; and on the other hand, individuals are to be found, qualified for the discharge of Probate duties, and unqualified for the details of town affairs. And that from these circumstances together with the indisposition of men to act in of fices for which they are unqualified, the town will sometimes less the best qualified men in both capacities. In recard to the comparative expense of the change, the Committee report that they have no certain means of calculating it. And, finally, they recommend a Committee to be appointed to draw up a Bill to be presented to the General Assembly for an Act to carry into effect this change in the Consti-Intion of our Town Council. The town, is would seem, received, and adopted the Report, and appointed their Delegation in the General Assembly to draft a Bill in accordance with the recommendation of the Report, and to procure its passage through the General Assembly.

Now it strikes me, Mr. Editor, that we have acted more precipitately, than usual, in effecting this revolution in the Town Government. In the late Charter movement, no one had a right to complain of due and sufficient notice. But here, with 0.11 sufficient and substantial reasons, we are asked to make an important change in the Constitution of our Town Council.-Let us take the reasons of the Committee in order. What has the want of a necessary connexion between Probate duties and Town duties to do with the subject ! According to Philosophers, there is no necessary connexion between our event and another. They might have been differently constituted. A traism of such a general nature affords no light for the guidance of the town in this matter. Again what have we to do with other States, or Towns, in relation to our Municipal officie!

It is the pride of Rhodo Island to originate, not to butrow. Let it be peculiar to Rhode Island, or, if you will, to the town of Newport, that she originated this Constitution of the Town Council-a Consti tation which she has maintained for two hundred years, which she has preserved unabered, amil a variety of changes of fortune, and saccess on of events. Constitution was forwed at the first settle ment of the town, has been transmitted from generation to generation, down to our owe time, for the single satisfactory rens on, that it has ever futilled all the nursuses of its institution. And it has ever falfilled all the purposes of its institution, because we have, always, had in our Town Conneil, mea qualified for the discharge of the duties imposed upon them. Why, then, should we change this form of polity, on the supposition, that a time will arise when Newport will not produce men qualified for the duties, and willing to accept of the office of a Town Council-man, Let the exigency, assumed in the report of the Committee, actually arise, and then the town can be guided by the circumstances of the case. We are aventioned to the present form of policy. We know the strength of the machinery. We know how it works. We know the expense of its working. It is for there reasons we wish to have this unchinery preserved, because, cause no substantial teas in occurs to lead work well hereafter. A CITIZEN.

THE WESTER THAL .- A most intelligent gentleman in Baltimore writer to us as follows, under date of the 1th instant.

" I have just read the leader in to Nay's North American, on the Webstercare, and a new week delighted with it, that I was a referin from expressing my sat staction. -think such views of the outrageous verthat in this case are not only demanded by the extraordinary circumstances under which it was rendered, but are due to our common homanity, to all esta habed principles of law, and to all the instincts of justice. Your article repeats the almost innasimous epinion of the Bir here, and accords fully with the sense of our community. In addition to this, a leading member of the Bar, who has just returned from Washington, informs me that the Judges of the Suffreme Court do not hesitate in familiar conversation, to express their surprise at and condemnation of this most unlooked for result of a trial, singular A all its features; but peculially siringe in connexture with the conduct of the counsel. who abandoned, and the Judge who denounced, the prisoner."

In this city, we are very confident, that by far the largest portion of the commentty, embracing those least liable to be disturbed in their judgments by possion or prejudice, look upon the trial of Dr. Webstar na a suferna, judicial mockery. Such, we have reason to know, is the opinion of the most eminent persons at the Bar and on the Bench; and even among impratessional observers, the obvious disregard of the usual forms, and the repeated violations of the simplest and safest rules of law, have excited the most profound astonishment.

Nor can this feeling he attributed to any tenderness for crime, or sympathy with criminals. As an individual, Dr. Webster excites little or no commisseration; as the victim of a false sentiment, which in his case, has overleaped all the legal barriers which are intended to hedge in human life, and secreticed him to a mistaken antion of severe justice, he is regarded with the intensest interest. Every man feels that the laxity in applying proper tests of evidence, and enforcing proper principles of law, which has condemned him to-day, may bring an innocent party to the gallows to-morrow; and every man, therefore, is moved to an earnest protest against the wrong which has been done him, as a wrong against society. - Philodelphia North American.

Washington, Tuesday, April 9.

Senare,---Mr. Webster asked to be sensed from serving on the committee that is to accompany Mr. Calhoun's remajus to South Carolina, private affairs compelling him to visit home. He was excused.

Mr. Dickinson moved that the Senate do now take up the deficiency

Mr. Davis said that he believed that the census bill was the special order, and that he was anxious to have it taken up.

Mr. Douglass said that if the deficiency hill is not now taken up, he should move that the Senate proceed to the consideration of the California

Mr.King wanted prompt action upon the census bill, but preferred to wait for Mr. Dawson's return.

Mr. Butler said that Mr. Dawson fould be absent at least two weeks.

Mr. King thereupon withdrew his bjection.

.oir. Dickinson's motion was then put to vote and lost by 18 to 19.

Mr. Davis moved that the census bill be taken up, which motion was carried, and the Senate are now considering upon some amendacuts.

House,-The House met at 12 M. and after the usual opening business was gone through with, Mr. Thompson asked leave to present the memorial of Mississippi, asking land for officers and soldiers of the war of 1812.

Mr. Conger objected, and said that he should continue to object until the resolutions from the New York Legislature were disposed of.

Leave was granted to the committee of investigation upon the charges made against the Secretary of War, in reference to the Galphin chain to sit during the meeting in the House

The resolutions in favor of contracting to supply the navy with American herep were then called up and Mr. Harris, of Bloosis, is speaking at some length in favor of the contract system.

Major N-, upon being asked if he was seriously injured by the bursting of the boiler on board a steamer, triplied that he was not, as he had been blowed up so many times by his wife, that a nero steamer had no effect on bias whatever.

A FLAW IN THE WEBSTER TRIAL -We understand that an able Massachusetts lawyer is about to publish an argument to show that Dr. Webster was not allowed his legal rights in regard to the constitution of the jury which tried him: that the court proceeded illegally in rejecting three jures from the panel on account of their sentiments on capital punishment; and that any prisoner has a right to a choice by lo of impartial men, irrespective of their opinions on panishment. From the arguments that have heretofore proceeded from this gentleman's pen, we are quite sure he will make a shaking among the dry bones of the law.--Boston Bee.
